TECHNICAL SKILLS

Programming Languages	JavaScript, Typescript, C++, Python, SQL, HTML, CSS
Frameworks/Libraries	React.js, Node.js, Next.js, Express.js, Mongoose, Bootstrap, Redux, Tailwind CSS
Cloud and Databases	AWS, MongoDB, Neon
Tools and Technologies	VS Code, Git, Github

EXPERIENCE

Product Manager

ICICI Bank

June 2023 - Dec 2023

Ahmedabad, Gujarat, INDIA

- Prepared BRS and test cases for trade finance projects, collaborating with cross-functional teams to ensure project alignment and efficient execution.
- Led successful development of TradeOnline, migrations of InstaEPC to NTS, and Helpdesk to iCRM, improving system performance and user experience through rigorous UAT and issue resolution.

PROJECTS

Money Mate — Web Development — [GitHub](#) — [Try It](#)

- Developed a MERN stack expense tracker application, incorporating Redux for efficient state management.
- React Query is utilized for efficient data fetching, while frontend styling is handled using Tailwind CSS.
- Introduced a category-based system that enables users to organize income and expense categories.
- Based on the categories created a user can associate transactions with them.
- Focused on scalability and performance, ensuring seamless user interactions through the integration of Redux.
- Enhanced user experience by integrating interactive data visualizations, leveraging Chart.js.

Estate Edge — Web Development — [GitHub](#) — [Try It](#)

- Created a real estate platform using the MERN stack, enabling users to list properties for sale or rent.
- Advanced search functionality based on filters and option to upload atleast 6 images of the property.
- Integrated Firebase for seamless image storage and retrieval, optimizing the property listing experience.
- Integrated secure authentication using JWT and Google OAuth to ensure user data protection.
- Built responsive UIs with React.js, Tailwind CSS, and managed state with Redux for smooth user interactions.

Calendar App — Web Development — [GitHub](#)

- Built a scheduling and event booking application using Next.js, allowing users to create and manage events.
- Contains timezone support for seamless cross-region collaboration integrating Google Calendar.
- Implemented core features such as creating schedules, booking events for other users.
- Handling event conflicts, optimizing user convenience and calendar management.
- Built responsive UIs using Tailwind CSS and Shadcn, ensuring a user-friendly experience across all device types.
- Integrated Clerk for secure authentication, Neon with Drizzle for a scalable, serverless PostgreSQL database solution.

EDUCATION

Master of Technology, Indraprastha Institute of Information Technology (IIIT Delhi)

2021 - 2023

Computer Science, CGPA - 7.32

Bachelor of Engineering, Silver Oak College (GTU)

2017 - 2021

Computer Engineering, CGPA - 9.52

CERTIFICATIONS

- AWS Cloud Technical Essentials — [Link](#)
- Introduction to Generative AI Learning Path Specialization — [Link](#)
